

# ***Carpathian Fluid Geochemistry Summer School 2024***

***Eastern Carpathians (Romania)  
15-21 July 2024***

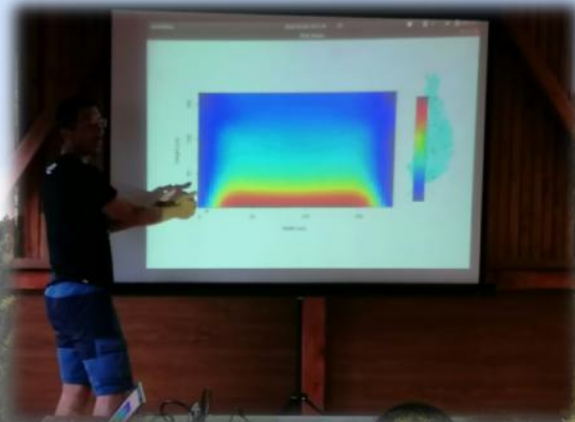

The 2° edition of the **Carpathian Fluid Geochemistry Summer School**, patronized by the Italian Geochemical Society (**So.Ge.I.**), the IAVCEI Commission on the Chemistry of Volcanic Gases (**CCVG**) and Commission on Volcanic Lakes (**CVL**), will be hosted in the **Eastern Carpathians**, Romania.

The summer school is addressed to **Bachelor, Master** and **PhD students**. It gathers researchers and professors with diverse expertise in fluid geochemistry, volcanology and hydrogeochemistry.

The main aim is to bring together the next generation of researchers, active in studies concerning **fluid geochemistry**, and to introduce them with innovating measurement and sampling techniques in **different geodynamic settings**.

Field activities will be carried out at (I) **Saint Anna crater lake** and (II) degassing areas of the **Ciomadu volcanic complex**.

The students will have the opportunity to experience different techniques of **gas and water sampling, measurements of diffuse degassing from soil and lakes, and air contaminants using the multi-gas technique**. Activities in the field will be integrated by oral sessions dealing with related topics

**Registration fee** is 560 euro covering accommodations, transportation and meals. Students will be responsible for their travel expenses. Registration can be done on the following link, since the **1st of March**:

<https://forms.gle/PzSQxAQyDMnf5biYA>

Payment method will be sent to registered participants later on.

Full program will be detailed in the 2° circular, and will be posted on [enviro.ubbcluj.ro](http://enviro.ubbcluj.ro)

**Registration deadline: 29th March, 2024**

**Fee payment deadline: 15th April 2024**
